-Digital Drawing, Draughting, Soccer, Gaming

Experience

Freelance Web Developer, 2+

- One of the projects I have worked on was an e-commerce site which I designed in Figma, Used HTML, CSS and JavaScript for the Front-End and for the Back end I used a Nodejs server connected to MongoDB which I developed from scratch
- My portfolio was Built using React for the Front-End and for the contact form data is sent to my MongoDB data base using my Nodejs server which I host locally
- For one of my projects which uses an API and axios to fetch and displays data dynamically was built with React.

UI/UX Design Researcher, 1+

- I do research on the why's and how's, do's and don'ts of user interfaces, I have created a blog for myself to explore these questions and dive deep into how I can make engaging User interfaces and experiences

Education

IT System Development

Gauteng City College

Learning:

- Fundamentals of web development
- Data base management
- Programming (JavaScript, C++ and Python)

Awards

Computer Literacy Award | Mamelodi Initiative - 02.11.2018
